

CMSNA website Help

If you are unable to log into the Clan MacLaren website and are using Internet Explorer (IE), you may have Privacy settings that are blocking the site.

Try adding 2 domain names to your IE “Managed Websites” list using these steps:

- Click on **Tools** in the Internet Explorer Menu bar
- Then select “**Internet Options**”
- Then select “**Privacy**” tab (the settings here should be **MEDIUM**)
- Then click on the “**Sites**” button

You’ll see a screen like this:

If you do not see “**clanmaclarennna.org**” and “**nancynorland.com**” in the Managed Websites box, you will need to add them:

- Enter www.clanmaclarennna.org into field “Address of Website”
- Click on the “Allow” button
- Enter www.nancynorland.com into field “Address of Website”
- Click on the “Allow” button
- Click on OK to save these settings.

CMSNA website Help

You can verify that these settings are being used by closing the Privacy tab and then reopening it.
